MUHAMMAD FAYAZ

Web Developer

PROFILE

WEB DEVELOPER PROFILE

I am a highly motivated and results-oriented web developer with a strong foundation in both front-end and back-end development. My passion lies in stunning front-end experiences.

While I possess the skills to manage the entire development lifecycle, my true strength lies in front-end development. I excel in utilizing the latest technologies like HTML, CSS, and JavaScript frameworks (e.g., React) to build interactive, responsive, and performant web applications.
